About the OZSW

The *Nederlandse Onderzoeksschool Wijsbegeerte* (OZSW), or the Dutch Research School of Philosophy, was established at the end of 2012. It is an initiative of the philosophy departments at 11 Dutch universities. The general purpose of the OZSW is to strengthen the discipline of philosophy by promoting and facilitating research collaboration between the participating universities, and the training of young researchers (PhD students and Research Master students). This annual conference is one of its activities.
